

Please think of these maps as works in progress. This map especially, since most of the fishing locations were just seen as likely looking in Google Earth views. If you have 1st hand knowledge, would you share it by dropping a note to outings.gpff@gmail.com. The maps print full scale on 11"x17" paper. Comments may be added in Adobe Reader, and they may be freely edited in Adobe Illustrator.

Note: Elk trails provide frequent access to Redwood Creek from the main trail.

Redwood Creek Regs and Flows

Main Stem within a radius of 200 yds of its mouth, Jan 1 - Mar 31, only artificial lures with barbless hooks;
Main Stem from 200 yds above its mouth to Prairie Creek, 4th Sat in May - Mar 31, only barbless hooks;
Main Stem from Prairie Creek to Bond Creek, 4th Sat in May - Mar 31, only artificial lures with barbless hooks;
-- 2 hatchery trout or hatchery steelhead, 4 in possession.

Main Stem and tributaries, above Bond Creek, CLOSED TO FISHING ALL YEAR.

Sharp winter flow peaks at Orick take 2-3 days to return to normal. ... And the mud?
